

After Death.

[Chronicle "Undertones."]

I don't want to be buried when I die. It is not because I am proud. I don't want to be preserved or embalmed. Very simply, I want to be cremated. I don't believe I shall want these bones and things again after I have once laid them down. I have an obscure impression that they are not intended to be scraped and sand-papered, oiled and fixed up for the judgment day, and so I respectfully request, that as I have never occupied much room in this world, nobody will pay rent for a place to keep me after I am dead. Very honestly, I don't see any particular glory in being buried with a brass band and put away in an expensive box. Invest the money in reducing me to the most convenient and condensed size, plant a violet in the flower pot that contains my ashes and let me be of some use, even if it be but to fill an ornamental vase on a window sill.

Literary Criticism.

[Texas Siftings.]

Old Simkins is what might be called a comical old cuss. A literary friend invited him to take a glass of wine in an Austin restaurant.

"Have you read my two last poems?" asked the literary friend.

"Yes, I have read them," replied old Simkins, with a sigh.

"Well, tell me now, candidly, how do you like them?"

"Candidly?"

"O, certainly."

"The first of these two poems is absolutely worthless, and the second one is not quite up to the standard of the first one."

George F. Frelinghuysen: There is plenty of chance left for inventive beings to reap a rich reward if they will only patent an invention instead of inventing a patent.

The Restaurant Keeper's Friend.

[Boston Gazette.]

The calf is the restaurant keeper's best friend, inasmuch as it provides his bill of fare with: mock turtle soup, chicken salad, chicken croquettes, pot-pie, boned turkey, turkey hash, veal in its various unmasked forms, and indigestion.

The True Laugh.

[Plantation Philosophy.]

De heart must be in er laugh ter make it true. De dry haw haw o' de man whut would like fur yer ter think he's innocent o' any schemes kain' fool me. De laugh whut is true mus' hab a tear mixed in wid it.

Six Negatives.

[Chronicle "Undertones."]

I once knew a man who spelt the simple word "no" six different ways in one letter and then felt very uncertain whether he had hit it. Noe—now—kno—know—knoe—knough.

Our National Airs.

[Boston Budget.]

It is a singular fact that nearly all our national airs were composed, arranged and put before the public by actors. "Star Spangled Banner," words by Key, arranged to music by Ferdinand Durang, an actor; "Home, Sweet Home," words by John Howard Payne, an actor, music arranged by Sir Henry Bishop; "Dixie," words and music by Dan Emmett, a negro minstrel; "Hail Columbia," words by Hopkins music, and first sung by Fox, an actor; "The Suwannee River," words and music by Foster, first sung by E. P. Christy, negro minstrel; "Hunters of Kentucky," words by Woodworth, first sung by N. M. Ludlow, an actor.

Velocity of Animal Movement.

[Exchange.]

The dragon fly can outstrip the swallow; nay, it can do in the air more than any bird; it can fly backward and sidelong, to right or left as well as forward, and can alter its course on the instant without turning. It makes twenty-eight beats per second with its wings, while the bee makes 190 and the horse fly 330. The swiftest race horse can double the rate of the salmon. So that insect, bird, quadruped and fish would be the order according to velocity of movement.

Boston Transcript: The man who always speaks what is uppermost in his mind should remember that the froth is always at the top.

Kentucky's Contribution.

[Winchester (Ky.) Sun.]

A gentleman residing near Cornwell, on the K. & S. A. railroad, was in The Sun office Saturday, and related that on a farm adjacent to his there is a sycamore tree with a knot-hole about six feet from the ground, out of which constantly flows a stream of water, and occasionally fish have been seen to issue from the tree. Tourists who happen in that region flock to the place to view this natural curiosity.

A Constitutional Walk.

"Paying a visit of ceremony to a distant milestone does not constitute a healthful walk," says a physician who believes that the best way of taking a constitutional walk is to go somewhere with some object in view.

Paper from Cactus.

[Cincinnati Enquirer.]

The cactus is designed, through discoveries and inventions, to prove very useful, as experiments have shown that a fair quality of paper can be manufactured from it. An English company has recently been organized, and has purchased 50,000 acres of New Mexican desert. It will soon erect a mill and embark in the manufacture of paper from a plant that has heretofore been considered a pest.

Overdoing It.

[Chicago Times.]

A manufacturer of plaster-of-paris images in Philadelphia says that busts of Garfield have been so popular that a firm in Germantown has decided upon a large supply of soap busts to place in drug store windows. There are instances in which popularity becomes senseless.

Supreme Court.

CHIEF-JUSTICE JUDD ON THE BENCH.

TUESDAY, Nov. 11.

The Estate of John Mendez made application for letters of administration. Letters granted to Makamoo; bond \$500.

The Estate of S. W. Kahula made application for letters of administration. Letters granted to J. W. Kahula's widow and W. R. Castle jointly; bond, \$1500.

Another Balloon Craze.

Balloon construction has certainly taken a fresh impetus in this centenary year of aeronautics, and now another air-ship, capable, according to its inventor, of being steered in a given direction, is being planned, this time at St. Petersburg. Like the French invention recently tried at Meudon, the Russian balloon is cigar-shaped, while it is propelled by a screw and sails. The balloon, with all its appurtenances, will be 200 feet long and 80 feet high, and when manned by a crew of sixteen, and driven by a fifty horse-power engine, is expected to make 160 miles an hour. The trial trip is to take place this month.

A Skillful Surgical Operation.

The American Ambassador at Vienna, Mr. Kasson, has lately forwarded to his Government an interesting account of a remarkable surgical operation lately performed by Professor Billworth, of Vienna, which, wonderful to tell, consisted in the removal of a portion of the human stomach, involving nearly one-third of the is a dizziness, a whistling sensation, and he is obliged to grasp something firm to keep from falling. The bowels costive, the skin dry and hot at times; the blood becoming thick and stagnant, and does not circulate properly. After a time the patient spits up food soon after eating, sometimes in a sour and fermented condition, sometimes sweetish to the taste. Oftentimes there is a palpitation of the heart, and the patient fears he may have heart disease. Towards the last the patient is unable to retain any food whatever, as the opening in the intestines becomes close or nearly so. Although this disease is indeed alarming, sufferers with the above-named tomtsyms should not feel nervous, for nine hundred and ninety-nine cases out of a thousand have no

cancer, but simply dyspepsia, a disease easily removed if treated in a proper manner. The safest and best remedy for the disease is Siegel's Curative Syrup, a vegetable preparation sold by all chemists and medicine vendors throughout the world, and by the proprietors, A. J. White (Limited), 17 Farringdon road, London, E. C. This syrup strikes at the very foundation of the disease, and drives it, root and branch, out of the system.

St. Mary street, Peterborough,
November 29th, 1881.

Sir—It gives me great pleasure to inform you of the benefit I have received from Siegel's Syrup. I have been troubled for years with dyspepsia; but after a few doses of the Syrup I found relief, and after taking two bottles of I feel quite cured.

I am, Sir, yours truly,

WILLIAM BRENT,
September 8th.

Mr. A. White:

Dear Sir—I find the sale of Siegel's Syrup steadily increasing. All who have tried it, speak very highly of its medicinal virtues; one customer describes it as a "Godsend to dyspeptic people." I always recommend it with confidence.

Faithfully yours,

(Signed) VINCENT A. WILLIS,
Chemist Dentist, Merthyr Tydvil.

To Mr. A. J. White:

Siegal's Operating Pills are the best family physic that has ever been discovered. They cleanse the bowels from all irritating substances, and leave them in a healthy condition. They cure costiveness.

Preston Sept. 21st, 1883.

My dear Sir—Your Syrup and Pills are still very popular with customers, many saying they are the best family medicines possible.

The other day a customer for two bottles of Syrup, and said "Mother Siegel" had saved the life of his wife; and he added, "one of these bottles I am sending fifteen miles away to a friend who is very ill. I have much faith in it."

The sale keeps up wonderfully; in fact, one would fancy almost that the people were beginning to breakfast, dine, and sup on Mother Siegel's Syrup, the demand is so constant, and the satisfaction so great.

I am, dear Sir, yours faithfully,

(Signed) W. BOWKER.

To A. J. White, Esq.

Spanish Town, Jamaica, West Indies,
Oct. 24, 1882.

Dear Sir,—I write to inform you that I have derived great benefit from "Siegal's Syrup." For some years I have suffered from liver complaint, with its many and varied concomitant evils, so that my life was a perpetual misery. Twelve months ago I was induced to try Siegal's Syrup, and although rather sceptical, having tried so many reputed infallible remedies, I determined to give it at least a fair trial. In two or three days I felt considerably better, and now at the end of twelve months (having continued taking it) I am glad to say that I am a different being altogether. It is said of certain pens that they "come as a boon and a blessing to men," and have no reason to doubt the truthfulness of the statement. I can truly say, however, that Siegal's Syrup has come as a "boon and a blessing" to me. I have recommended it to several fellow-sufferers from this distressing complaint, and their testimony is quite in accordance with my own. Gratitude for the benefit I have derived from the excellent preparation prompts me to furnish you with this unsolicited testimonial.

I am, dear Sir, yours ever gratefully,
(Signed) CAREY B. BERRY,
Baptist Missionary.

A. J. White, Esq.

Hensingham, Whitehaven,
October 16, 1882.

Mr. A. J. White,—Dear Sir: I was for some time afflicted with piles, and was advised to give Mother Siegel's Syrup a trial, which I did. I am now happy to state that it has restored me to complete health.

I remain yours, respectfully,
(Signed) JOHN H. LIGHTFOOT.
